### SAVINGS TOOLKIT FOR THE COMMUNITY

Dear Valued Community Leader,  
We acknowledge and appreciate the extraordinary contributions you make to the communities you serve. We would like to support and build upon your community efforts by providing a Savings Toolkit containing information to help your constituents save energy, money, and the environment.

By working together, we can connect more with community members to help them learn how they can lower their electricity costs and save money. We offer a variety of programs that may provide electrical-powered medical equipment, bill payment assistance, and help for those who require the use of the energy lifestyles and various household's needs.

Your Savings Toolkit includes materials you can use to bring these energy and cost-saving opportunities to your community. From your offices to local events, we encourage you to share this information to lower their energy bills, inside the toolkit, you'll find a guide with more information and suggestions on how to spread the word.

Thank you for being an influential and important resource for sharing information that can help your community members' household finances and comfort. By joining us in getting the message out to keep people informed about available programs, services, and rate plans, you can continue to advance the lives of those we serve. For more information, please visit [scc.com/CBOresources](http://scc.com/CBOresources).

Sincerely,

*Jill C. Anderson*
