

**Multifamily Affordable Solar Housing (MASH)
Cost Justification and Acknowledgment Form**

This form is required because the cost per watt that was submitted on PowerClerk for this MASH project exceeds the Limitations on Installed Cost. Please refer to the MASH Program Handbook for more information. The proposed project is significantly more expensive than most projects in the MASH program and requires a cost justification. The MASH Program Handbook explicitly lists what are eligible project costs in order for an application to be valid. The MASH Program Administrators will determine compliance with the MASH Program Handbook. Applications that exceed the Limitations on Installed Cost must demonstrate that the high cost is supported by eligible project costs in the MASH Program Handbook or the application will be invalid. No projects will be paid without sufficient justification and a Host Customer acknowledgment.

This form requires first that the applicant provide justification for the high unit cost of this proposed project and second that the host customer acknowledges that he/she has read and understood the explanation and is aware that the total proposed system cost is significantly in excess of typical projects in the MASH Program.

High Cost Justification for Proposed System Installation (to be filled by applicant):

MASH Application number: _____

Proposed Site Address: _____

Applicant name: _____

Applicant signature: _____

Customer Acknowledgment of High Cost of Proposed Installation:

“I have read and understood the above explanation for the high cost of the proposed installation, and I am aware that the proposed total system cost for this project significantly exceeds the cost of most projects in the MASH Program.”

Host Customer

System Owner (if Different from Host Customer)
