

2019 Multifamily Energy Efficiency Product Specifications

A. ENERGY STAR® LED Exterior Hardwired Fixtures

Up to **\$23** Rebate per Fixture

Requirements:

- Must be an ENERGY STAR-certified LED Outdoor Light Fixture replacing CFL, Halogen, or Incandescent fixtures; replacement fixtures using A19 lamps must have GU-24 sockets.
- Rebates are based on a one-for-one replacement of existing exterior light fixtures such as outdoor Wall Mounted, Ceiling Mounted and Post Mounted fixtures.
- Excludes the following fixture types: Downlight Recessed, Downlight Surface Mount, or Downlight Solid State Retrofit.
- Must be listed on ENERGY STAR's Certified Product List. Visit energystar.gov/products to verify.
- Rebate incentive amounts vary by fixture wattage and installation type.
 - Dwelling Area fixture installations are switched on/off individually in tenant unit(s); examples include porch and patio type fixtures.
 - Common Area fixture installations serve multiple tenants of a building or complex and are typically switched on/off by a central timer or control; examples of common area locations include corridors, stairways and carports.
- Make and model number must be included with copy of proof of purchase.

B. LED T8 Replacement Lamps (UL Type A)

\$2 Rebate per Lamp

Requirements:

- Rebates are based on a one-for-one replacement of lamps
- Only 4-foot LED T8 lamps replacing T8 fluorescent lamps are eligible.
- Lamps must be listed on the DLC's Qualified Products List (QPL) under "Replacement Lamps ("plug and play") (UL Type A)" and compatible with existing ballast to qualify. Visit designlights.org/qpl to verify.
- Efficacy: ≥ 110 LPW
- CRI: ≥ 80
- CCT $\leq 5,000$ K
- Power Factor: ≥ 0.9
- Total Harmonic Distortion $\leq 20\%$
- Lumen Maintenance: L70 > 50,000
- Make and model number must be included with copy of proof of purchase.

C. ENERGY STAR® LED Recessed Downlight Fixtures

Up to **\$4** Rebate per Fixture

Requirements:

- Must be an ENERGY STAR-certified LED reflector type light fixture replacing incandescent, PAR halogen, or PAR halogen IR fixtures as a fully integrated LED luminaire (complete retrofit kit).
- Rebates are based on a one-for-one replacement of incandescent or halogen accent or down-light fixtures.
- The following fixture types are eligible under this category: Downlight Recessed, Downlight Surface Mount, or Downlight Solid State Retrofit.
- Must be listed on ENERGY STAR's Certified Product List. Visit energystar.gov/products to verify.
- Make and model number must be included with copy of proof of purchase.
