PREPARE FOR WILDFIRE SEASON

How You Can Sign Up for PSPS Alerts

Helpful Resources During PSPS

DID YOU KNOW?

Customer Service: 1-800-655-4555
sce.com/psp

Nextdoor. (Sign up at nextdoor.com or phone call. You can also receive alerts on choose to receive your notifications by text, email or ZIP code by visiting sce.com/psps. You can sign up for PSPS alerts using your address responder vegetation, on-the-ground observations, input from emergency management officials and first neighborhoods we serve, and we share your concerns about power outages at this difficult time.

However, as in past years, when there is a high risk for a wildfire, we may temporarily shut off power to prevent the risk of ignition. We may do this under three conditions: dry vegetation, on-the-ground observations, input from emergency management officials and first our families. We understand it is important to have access to electricity during the PSPS event. (Please note that the stay-at-home order will affect these plans.)

Our warnings, to evaluate our system to ensure the safety of our customers and the families we serve. We have become more serious about preventing an electrical source, and we share your concerns about power outages at this difficult time.

As California prepares for the 2020 wildfire season, our crews continue to perform ground and aerial inspections and install high-tech tools to help make communities more resilient and reduce the number of proactive power shutoffs.

You may see our crews working by air or ground to inspect electrical equipment or vegetation around our equipment. Our employee crews wear SCE photo ID badges and company uniforms. In most cases, vehicles will have SCE logos or “SCE approved contractor” decals.

PSPS CONSIDERATION FACTORS AND NOTIFICATION PROCESS

If conditions indicate extreme fire danger in an area with a high risk of wildfires — for example, if there are strong winds, low humidity, dry vegetation and there is a fire threat to electric structures or a public safety risk — we may temporarily shut off power to some customers.

We will send multiple notifications before, during and after a PSPS is called. To see if you are impacted during a PSPS, enter your address at sce.com/psps and get the latest updates, including period of concern and estimated restoration time. The interactive outage map will also show the location of available resources, including Community Crew Vehicles and Community Resource Centers.

UPDATE ON OUR WILDFIRE MITIGATION EFFORTS

As California prepares for the 2020 wildfire season, our crews continue to advance inspections to address wildfire risks.

EMERGENCY PREPAREDNESS

An emergency can happen at any time. You can help your family be prepared with a safety preparedness plan, some basic supplies and advance planning. Whether a pandemic, an earthquake or a wildfire, preparedness will help everyone cope better and stay safer.

If you depend on electrically powered medical equipment, plan to have a backup power source. You may be eligible for SCE’s Medical Baseline program. Learn about the program and how to apply at sce.com/medicalbaseline.
