

Originally released November 4, 2014

Revised November 12, 2014- removed the "CO₂ Supplier CO₂e" column from Facility Reported GHG Data and the "CO₂ Supplier Covered Emissions" column from ARB Calculated Covered Emissions, and included the CO₂ Supplier emissions in the "Emitter Non-Biogenic CO₂e" column for facility reported emissions and the "Emitter Covered Emissions" column for ARB calculated covered emissions. This does not result in any changes to total 2013 emissions subject to a compliance obligation under the Cap-and-Trade Program.

California Air Resources Board

The total 2013 emissions subject to a compliance obligation for the first compliance period in the Cap-and-Trade Program equals 144,999,976 metric tons CO₂e.
