SOUTHERN CALIFORNIA EDISON COMPANY'S NOTICE OF APPLICATION REQUESTING TO INCREASE RATES FOR THE CLICK THROUGH AUTHORIZATION PROCESS

A.18-11-016

Summary

On November 26, 2018, Southern California Edison (SCE) filed an application with the California Public Utilities Commission (CPUC) requesting approval to increase rates to fund improvements to its Click-Through Process. Click-Through is an online signature process that allows customers to authenticate and give authorization for SCE to release customer-specific data to demand response providers (DRPs). This process starts and ends on a third-party DRP website. DRPs need access to this data to register customers for a demand response program that participates in the California Independent System Operator's (CAISO) wholesale market. The CPUC ordered investor-owned utilities to file an application to seek cost recovery for various improvements to the Click-Through.¹ The application includes:

- a proposal to expand the Click-Through solution(s) beyond DRPs to other distributed energy resource and energy management providers;
- a cost estimates and proposal for an alternate solution, and for sharing data within ninety seconds;
- improvements in data delivery processes, upgrades to the information technology infrastructure needed for Click-Through authorization processes;
- resolving implementation issues and additional functionalities discussed in the Customer Data Access Committee;
- publication of customer-friendly information on SCE's website including information about how to authorize data access or revoke authorization.

Rate Impact of SCE's Application

If the CPUC approves SCE's application as proposed, an average non-CARE residential customer using 550 kWh per month could see a monthly bill increase of \$0.02 from a current monthly bill of \$110.68 to \$110.70. The following table compares SCE's current bundled average rates as of October 1, 2018, by customer group, to proposed bundled average rates in 2019 if SCE's application is approved by the CPUC:

¹ Resolution E-4868 on August 25, 2017 in response to IOUs' Click-Through Advice Letters filed on January 3, 2017. In compliance with Ordering Paragraph 29 of Resolution E-4868, on November 26, 2018, SCE filed its Click-Through Application.

CPUC Process

The application will be assigned to one or more Administrative Law Judges (Judges) who will determine how to receive evidence and other related documents necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate.

After considering all proposals and evidence presented during the formal hearing process, Judges will issue a proposed decision which may adopt SCE's application as proposed, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon at a scheduled CPUC Voting Meeting.

The Public Advocates Office (Cal PA, formerly ORA) may review this application on behalf of SCE's ratepayers. Cal PA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. Cal PA has a multi-disciplinary staff with expertise in economics, finance, accounting, and engineering. For more information about Cal PA, please call (415) 703-1584, e-mail PublicAdvocatesOffice@cpuc.ca.gov or visit Cal PA's website at www.publicadvocates.cpuc.ca.gov.
