## COUNTY AND GOVERNMENT PROGRAMS

These county- and government-sponsored programs can also help you save money.

### CalFresh Program

The CalFresh Program, formally known as Food Stamps, can add to your food budget to put healthy and nutritious food on the table. The program issues monthly electronic benefits, through a card that works like a debit card, that can be used to buy most foods at many markets and food stores.

The CalFresh program helps to improve the health and well-being of qualified households and individuals by providing them a means to meet their nutritional needs.

Some counties may also participate in California's Restaurant Meal Program. Through this program, if you are an eligible food stamp recipient, and are homeless, elderly, and/or disabled, you can use your food stamp benefits to purchase prepared meals at participating restaurants.
