

UNDERSTANDING YOUR NET ENERGY METERING (NEM) 2.0 BILLING STATEMENT

NEM 2.0 applies to residential and small business customers who received permission to operate on or after July 1, 2017.

Your Account Summary

NEM 2.0 ABO Monthly with Charges

- Shows your current monthly non-energy charges (the minimum amount due), and the due date.
- Shows your year-to-date energy charges, and the month in which any charges that are not offset by credits will be due on your annual settlement bill. To lower your energy charges, you may make additional payments at any time, and they will show as credits on your account summary. More information is on your annual bill regarding your settlement bill at the 12 month billing period.

Customer account 2-00-000-0000	Rotating outage Group A073	Amount due \$13.53
Service account 3-000-0000-00 00 ANY DR ANY CITY, CA 90000	Date bill prepared 08/28/17	Due by 08/28/17
		Year-to-date charges through month 2: \$28.62 Due by month 12
Your account summary		
Previous Balance	\$85.39	Understand Net Energy Metering (NEM) billing You are billed annually for your energy charges because they can be offset by energy credits over your 12-month billing period. Any charges not offset by credits will become due at the end of your 12-month billing period. You also receive a monthly bill. It reflects the minimum amount due each month, which supports the cost of maintenance and operation for providing electricity.
Payment Received 09/18/17	-\$85.39	
Balance forward	\$0.00	
Your new charges	\$13.53	
Total amount you owe by 10/10/17	\$13.53

Information About Your Annual Bill

NEM 2.0 ABO Monthly with Charges

- Provides details about your year-to-date charges and your current billing month.

Your new charges Due monthly	Year-to-date charges: \$28.62 Settled at end of 12-month billing period (on or about 06/25/18)
<i>If you pay only this month's new charges, you may owe a large amount at the end of your 12-month billing period.</i>	<i>You may make additional payments anytime. Payments will not show up in your year-to-date charges. They will create a credit on your account. Any remaining balance forward will be settled against any charges in your 12-month settlement bill.</i> You are in billing month 2 of 12.

NEM 2.0 ABO Monthly with Credits

- Provides details about your year-to-date charges (and whether you owe any), and your current billing month.
- In this example, additional payments have been made, and they show as credits on the account.
- The remaining unused energy credit (year-to-date energy credit) is zeroed out when the annual settlement bill is available
- How do you receive credit? Year to date kWh credits are multiplied by the Net Surplus Compensation (NSC) rate (market rate), and the dollars are then rolled over to the new 12 month billing period, unless the customer requests his or her NSC in the form of a check.

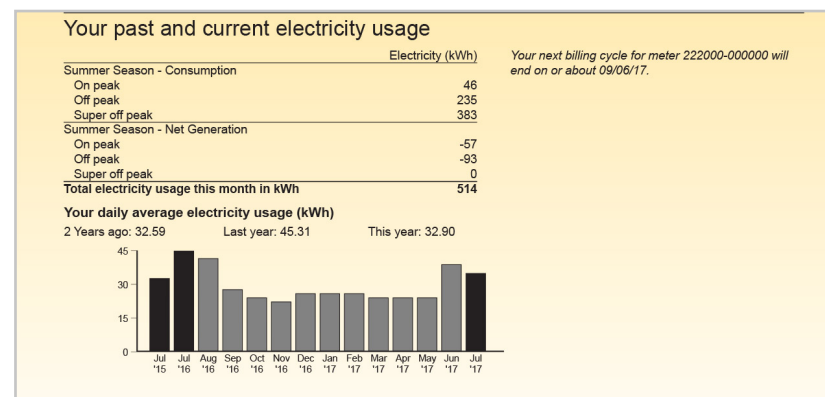

Your new charges Due monthly	Year-to-date charges: -\$17.24 Settled at end of 12-month billing period (on or about 08/25/18)
<i>Even if you have year-to-date energy credits, you incur some monthly new charges.</i>	<i>You do not owe any energy charges as of this month. Only make a payment for this month's new charges. Keep track of your year-to-date charges, as you may have charges in the future. If you are a net generator at the end of your 12-month billing period, you may be eligible for net surplus compensation.</i> You are in billing month 2 of 12.
