

Dive into Savings with a Variable-Speed Pool Pump and LED Pool and Spa Lighting

Through our **Multifamily Energy Efficiency Rebate Program**, property owners may be eligible to receive a rebate for the installation of a new Variable-Speed Pool Pump as well as for LED Pool and Spa Lighting. Enjoy deeper energy savings, a cleaner, clearer pool for your tenants, and faster project paybacks – it's a big win but only if you act now!

Boost Your Bottom Line with a new Variable-Speed Pool Pump

Your old, fixed-speed pool pump might be draining your property's operating budget. A new variable-speed pool pump can help you:

- **Reduce your immediate and lifetime cost of operation** and enjoy estimated savings of up to \$1,100 per pump annually.¹
- Experience **deeper energy savings of up to 45%** vs. traditional pool pumps.
- Enjoy **a more maintenance-free pool** with quieter operation – as low as 45 decibels.²

Property owners or authorized agents of apartment buildings, condominiums, townhomes and single-family homeowner association (HOA) communities, may qualify to receive a **\$1,000 rebate for each variable-speed pool pump installed** by an SCE-authorized contractor.³

Funds are limited. Act now to reserve your rebate today!

Multifamily Energy Efficiency Rebate Program

Brighten Up your Pool and your Energy Savings with LED Lighting

Light-emitting Diode (LED) pool lights can help you beautify your outdoor space as you make it more energy efficient. Consider installing LEDs into your pool and spa and take advantage of our **\$75 per lamp rebate**. LEDs can help to make your pool more attractive while also saving you time and money.

- **Longer life** – LEDs last longer than other types of lamps.
- **Lower electric bills** – You'll notice the savings immediately and over the long term with estimated cost savings of up to \$290 per lamp each year.⁴
- **More attractive illumination** – LEDs use 86% less energy and can help to give your pool a fresh, new look. New LED pool lights use 70 watts to create the same light output as a 500 watt incandescent light bulb.

Receive a
\$75 per lamp
rebate for
beautifying
your pool
or spa.

Cool Tip:

Purchase money-saving LED pool and spa lighting from the same SCE-authorized contractor who installs your new variable-speed pool pump.

Funds are limited. Act now to reserve your rebate today!

- ¹ Savings based on variable speed pump compared to a single-speed pump running 10 hours per day at an average of \$0.165 per kWh in a 32,000 gallon pool. Actual savings may vary based on utility rates, pool size, pump run time, pump horsepower, pump rpm, plumbing size and length, pump model, service factor and other hydraulic factors.
- ² Compared to noise level of typical 1.5 hp single-speed pump. Single speed pump 67dB, variable speed drive pool pump 45dB.
- ³ Visit sce.com/multifamily for a list of SCE-authorized contractors.
- ⁴ Savings based on a 500W incandescent being replaced with a 67W LED operating for eight hours at an average of \$0.165 per kWh.

This program is funded by California utility ratepayers and administrated by SCE under the auspices of the California Public Utilities Commission. Funds available on a first-come, first-served basis and are available to multifamily property owners that purchase eligible products. SCE does not endorse, recommend or guarantee any particular contract or their service, work or financial stability. Any agreement between contractor and customer is exclusive of SCE and SCE is not a party or guarantor of the agreement. Additional terms and conditions apply.
